INFINITY INNOVATIONS

# UHPC Concrete Paver

450 x 450 x 20mm / 12mm / 8mm Thick

## Introduction

A properly designed and constructed UHPC Paver gives excellent performance when applied at locations where conventional systems have lower service life due to a number of geological, traffic, environmental and operational constraints. Many number of such applications for light, medium, heavy and very heavy traffic conditions are currently in practice around the world.

Wall	Walkway	Driveway
8mm thick	12mm thick	20mm thick

## Installation

- Lay bedding sand. A bed of sand is necessary to provide final leveling properties and help secure the paver in place.
- Install a stable edge restraint to eliminate ant lateral movement of the pavers and sand bedding.
- Place pavers on the sand and fill the joints between pavers with fine silica sand.

## Advantages

- UHPC pavers are an ideal choice for residential and commercial applications, including driveways and walkways. These pavers are sensible and aesthetic attractive choice for all outdoor surfaces.
- UHPC pavers come in a literally endless number of styles. Pavers pattern of surface can be customized based on customer required.
- Our pavers have a non-skid surface even when the pavers are wet they are safe to drive a vehicle or walk over them.
- For simple project cost can be reduced by customer installing the pavement by themselves.
